Asking Rent  
\$19.51

### Suburban Office Market: Vacancy and Availability Numbers Don't Tell True Story

The suburban Chicago office market saw mixed statistical conditions during the first part of the year. Demand improved significantly in 2Q. 493,984 SF of net absorption was recorded decreasing YTD net absorption to -518,096 SF. This positive absorption in 2Q was not enough to decrease the vacancy rate, as it stands at 18.9% overall compared to 18.6% at year-end 2013. However, these current statistical conditions do not tell the entire story in suburban Chicago. Another large tenant migration to the CBD had a great impact on the overall vacancy and availability numbers since year-end 2013. Taking out the single 1,121,186 SF that Motorola left vacant, the net absorption for the year would jump to 603,090 SF; a very positive statistic.

The recurring theme of the “last mile” of vacant space for buildings remains stagnant. During the recession period of 2009-2011, many of the best existing spaces were absorbed during the “flight to quality” stage; coupled with new owners investing capital to improve building aesthetics and amenities. The current market, has stagnated because the capital investments have stopped, and the remaining vacant units show poorly. This is represented by vacant space continuing to sit on the market for longer periods of time.

On a positive note one large available space was taken off the market in the first half of the year. AbbVie sublet 558,859 SF from Capital One at 26525 N Riverwoods Blvd in the North submarket. Other large transactions include AT&T renewing/expanding its lease to 104,508 SF at 95 W Algonquin and IBM signing a new lease for 63,483 SF at 10 N Martingale Rd., both in the Schaumburg submarket. These deals reemphasize that large suburban deals can still be achieved with an owner that's willing to spend some capital to attract and retain tenants.

Asking rent increased 0.7% since 2013 mid-year. Overall weighted-average asking rent is now \$19.51/psf. Class A buildings positioned by major expressways and amenities are driving the slight increase. Another factor is the “last mile” of vacant space which owners are not lowering the rent on. Until owners see the value of leasing that space, the market will continue to see slight increases or decreases in rent YOY.

The suburban office sales market saw few transactions up to mid-year 2014. Numerous owners are looking to either sell or refinance their assets instead of chasing the last deal. On the other end, buyers are also not willing to take the chance on a low occupied building and redevelop it due to the inherent risks involved. Sale transactions up to mid-year include Beacon Investment Properties purchasing Riverwalk II in the Northwest submarket for \$45 million and a joint venture of Sam Zell's Equity Group and Fulcrum Asset Advisors paying \$13.1 million for One Conway Park in the North submarket.

# MID-YEAR 2014

## Suburban Outlook

- Tenants will continue to look to the CBD as an alternative to having a suburban office.
- Since the “flight to quality” stage has passed there's a limited supply of Class A space that still shows well and attracts tenants. Until capital improvements happen these spaces will remain vacant.
- Asking rent will stay stagnant as many owners can't raise or lower rates due to spaces not showing well or no urgency to lease the “last mile” of vacant space.
- The capital market will remain sluggish compared to the downtown Chicago office market.

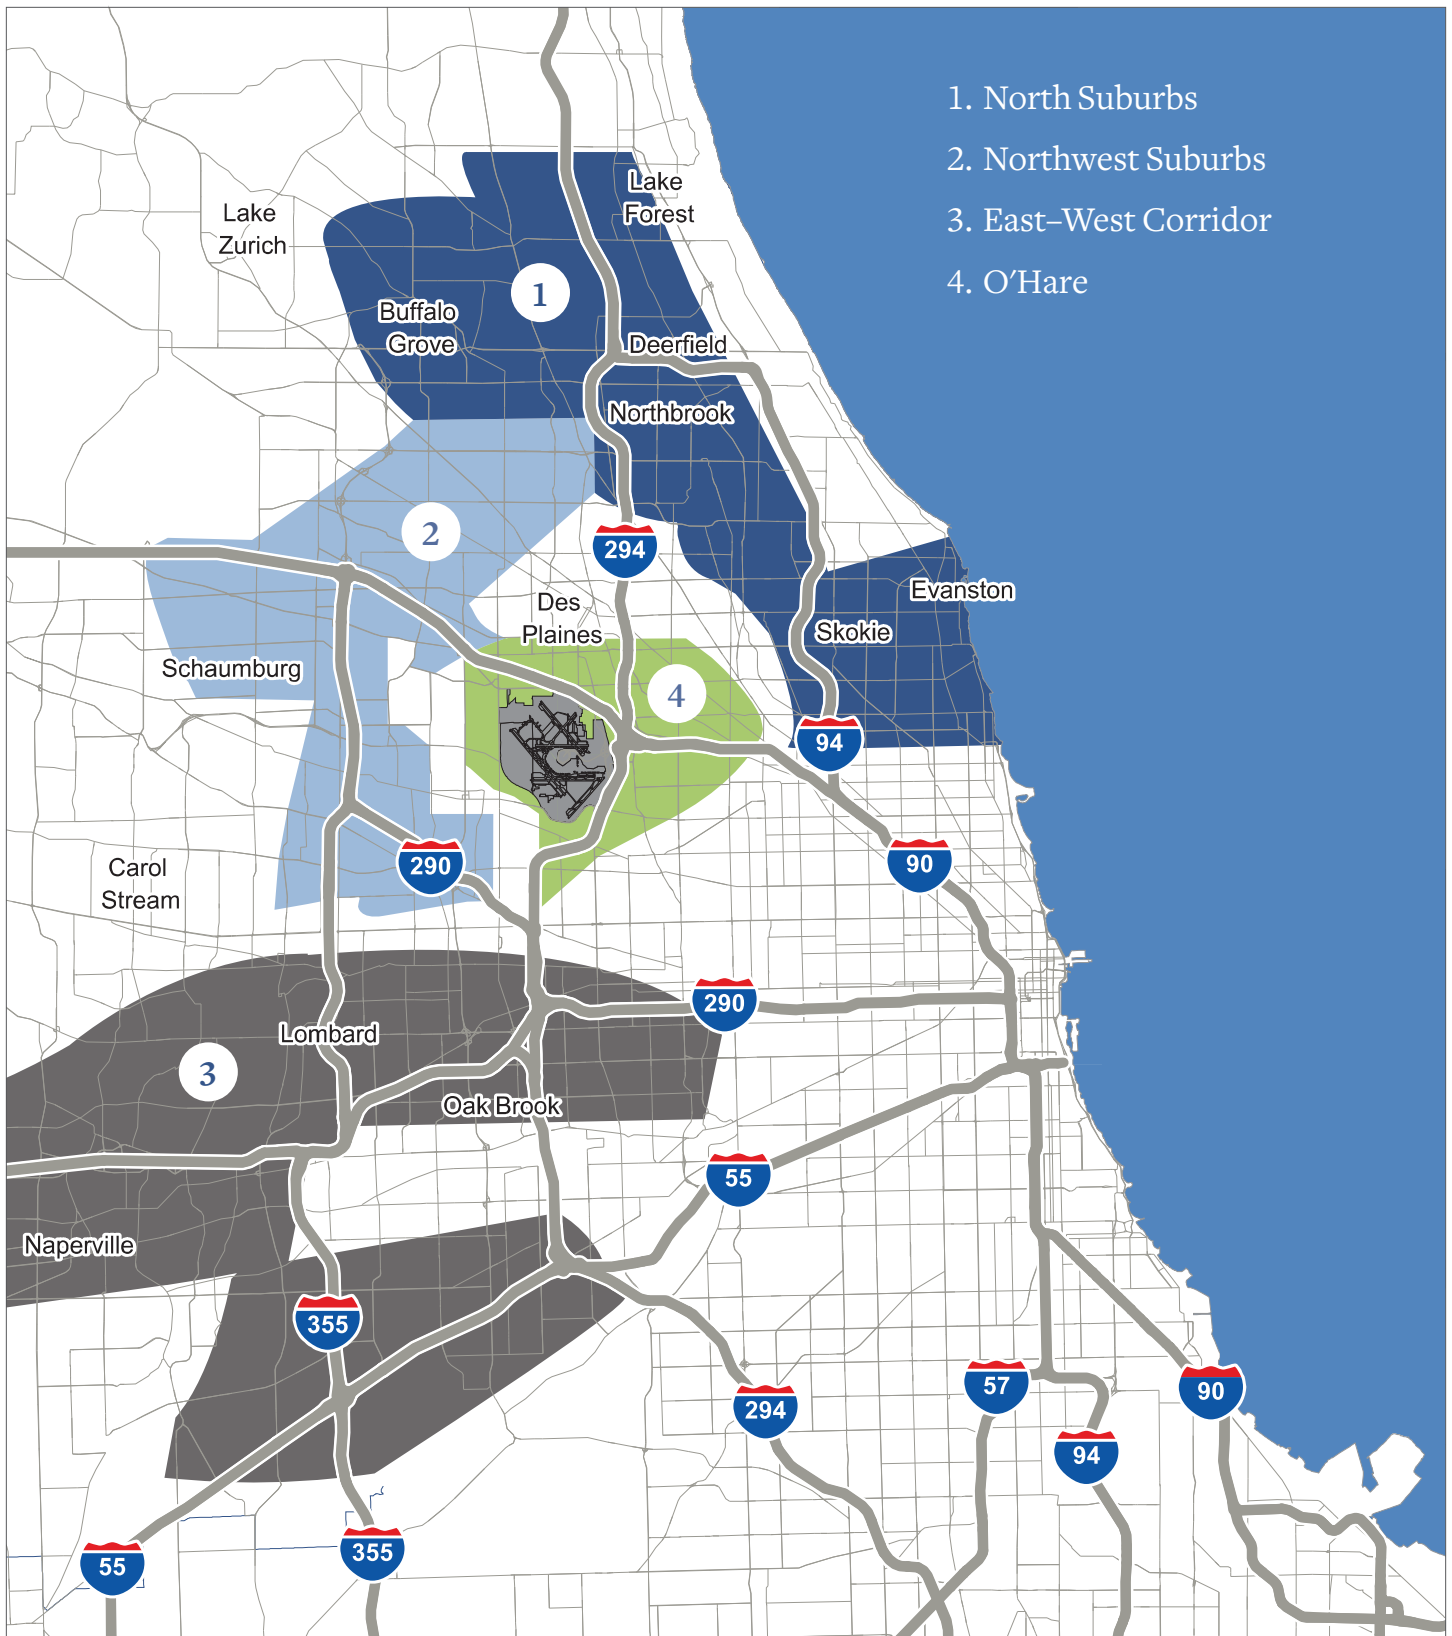

## Suburban Summary

		Mid 2014	Mid 2013
Total Inventory (SF)	▼	120,111,408	120,710,837
Overall Vacancy	▲	18.9%	18.3%
Direct Vacancy	▲	17.9%	17.4%
Sublease Vacancy	▲	1.0%	0.8%
Overall Available	▲	24.4%	24.0%
Direct Available	▲	21.8%	21.3%
Sublease Available	▲	2.9%	2.7%
Gross Average Asking Rate (Direct)	▲	\$19.51	\$19.36
Current Net Absorption (SF)	▲	493,984	25,757
YTD Net Absorption (SF)	▼	(518,096)	18,346
